Purpose

The Board of Trustees has delegated powers to the Management Committee. Two documents “House rules and processes” and this companion document “Management Committee Handbook” together detail the substance and boundaries of the delegation.

Whilst The Board of Trustees delegate such detailed authority the Board is ultimately responsible for the decisions and actions of the charity.

This document is a supporting reference document to aide the management committee in exercising their duties and responsibilities. The underlying aim of the content is to ensure consistent and accurate outcomes in accordance with the WWBC CIO constitution and the management document “house rules and processes” for all bowling and social activity.

The Board of Trustees and the Management Committee recognises the need for on-going flexibility in defining and keeping the duties and functions of key officer roles up-to-date, including the respective authority and expenditure limits of officers and sub committees.

The initial content of this reference document will be devoted to maintaining this necessary flexibility as allowed for in the WWBC CIO Constitution and the companion document “House rules and processes”.

All financial practices must adhere to the WWBC CIO Financial Control Policy.

Over time the aim is to produce additional specific sections covering the many topics that the main committee have to cover.

Any member newly elected to the management committee should browse this reference document as part of their induction to the role.

Updates to this reference document are the sole responsibility of the Management Committee following approval of changes from the Board of Trustees.

Any expenditure estimated to be more than the monthly authority level (of an individual) but not exceeding twice the monthly limit will require approval from the Treasurer.

Any expenditure estimated to cost more than twice the monthly authority level will require approval from the Board of Trustee before proceeding.

Additionally the management committee will set weekly expenditure levels for the ladies and men’s bowling committees, the social committee and bar team. Beyond these limits approval must be obtained from the management committee prior to the commitment of funds.
